Every business subscriber receives two dialup accounts with it's own electronic mail (e-mail) on the WCNet system. Each account has its own "address." E-mail sent to one account will not be seen by the other.

The first of the accounts (Primary Business dialup account) is in the name of the business and would probably be used for general mail to the business. The second (Secondary Business dialup account) is in the name of a principal or agent of the business, such as the owner or customer service manager, for mail specifically directed to him or her. A business may add additional dialup accounts for the same price as a regular subscriber account (\$95). A business may also add additional e-mail only accounts (\$12).

Complete the following information for both the primary business account and the secondary business account. Examples in italics are for a mythical business called "Shoe World" owned by Pat Shoemaker.

For the Primary Business account in the name of the business:

1. Select a preferred User Name & Primary E-mail Address which you will use when signing on to the system This is the "User Name" you will use to gain access to the Internet and WCNet electronic mail (e-mail). If the account name you select is already in use, we will do our best to create a unique name similar to your first choice.

- The name consists of 3 to 8 lower-case letters or numbers and may not contain spaces.
- The name **MUST** begin with a letter.

Preferred User Name:

example:

s w o r l d

2. Select an alias e-mail address. This will be an address you may give to your correspondents. It can be the same as your User Name, but sometimes people choose something more descriptive (and more like their business name). It's okay to publicize this e-mail address using upper and lower case letters to make it easier to read ("ShoeWorld@wcnet.org"), but in use, e-mail addresses are not case-sensitive. If the e-mail address you select is already in use, we will do our best to create a unique e-mail address similar to your first choice. *This is only one e-mail box with two names. You have the choice to use the Preferred User Name above or give the e-mail box an alias.*

Your e-mail address may be up to 35 characters long. Use letters, numbers, periods ('.'), and underlines ('_') only. Do not use spaces or any other characters.

Preferred alias e-mail address: _____ @ wcnet.org

example:

ShoeWorld@wcnet.org

3. Sign and date the subscription agreement on the last page of this form.

For the Secondary Business account in the name of the owner or designated individual:

1. Write the person's name here: _____

2. **Select a preferred User Name** which this individual will use when signing on to the system. See item 1 in the previous section for guidelines. The name consists of 3 to 8 lower-case letters or numbers and may not contain spaces. The name must begin with a letter. You do NOT have to use or create this Secondary Account, you may choose to do so at a later date.

Preferred User Name: _____
example: p a t s h o e

3. **Select an alias e-mail address.** See item 2 in the previous section for guidelines. The e-mail address may be up to 35 characters long. Use letters, numbers, periods ('.'), and underlines ('_') only. Do not use spaces or any other characters.

Preferred alias e-mail address: _____ @ **wcnet.org**
example: *PShoemaker@wcnet.org*

4. **Sign and date the Subscription Agreement on the last page this form.** If the business owner (main applicant) is not the person who will use the Secondary dialup & e-mail account, then the person named on line 1 in this section must also sign the Subscription Agreement.

These rules are subject to change at any time without notice. An updated rule list will be available for reference on the main system. I will keep up to date with all notices.

I have read and agree with the above statements.
